

## PINP Recombination Protein

### Basic information:

<b>Catalog No.:</b>	UDP9099-1	<b>Source:</b>	Human
<b>Expression Host:</b>	<i>Escherichia coli</i>	<b>Type:</b>	Recombinant protein
<b>Purity:</b>	> 90 % as determined by SDS-PAGE		

### Useful Information:

#### Construction:

N/A

#### Molecular Mass:

N/A

#### Formulation:

N/A

#### Biological Activity

N/A

#### Endotoxin:

N/A

#### Storage:

Recombinant proteins are provided as frozen liquid which are shipped with dry ice. Bulk packages can be provided as lyophilized powder which shipped with blue ice.

#### Reconstitution:

According to the application.

#### Description:

PINP (Procollagen I N-Terminal Propeptide) is closely related to a variety of bone metabolic diseases, tumor bone metastasis and multiple myeloma, and its detection is not affected by food, circadian rhythm, hormone and other interfering factors.

#### Note:

This material is offered by Gene Universal for research, laboratory or further evaluation purposes. Not for human use. Made in China.
